COACH'S CODE OF CONDUCT

The athlete/coach relationship is a privileged one. Coaches play a critical role in the personal as well as athletic development of their athletes. They must understand and respect the inherent power imbalance that exists in this relationship and must be extremely careful not to abuse it. Coaches must also recognize that they are conduits through which the values and goals of a sport organization are channeled. Thus, how an athlete regards his/ her sport is often dependent upon the behavior of the coach. Boxing BC has adopted the Coach's Code of Conduct which has been developed to aid coaches in achieving a level of behavior that will allow them to assist their athletes in becoming well-rounded, self-confident and productive human beings.

Coaches have a responsibility to:

1. Treat everyone fairly within the context of their activity regardless of gender, place of origin, color, sexual orientation, religion, political belief or economic status.
2. Direct comments or criticism at the performance rather than at the athlete.
3. Consistently display high personal standards and project a favorable image of their sport and of coaching:
 - a) Refrain from public criticism of fellow coaches, especially when speaking to the media or recruiting athletes.
 - b) Limit the use of tobacco products while in the presence of his/ her athletes and encourage the athletes to pursue a tobacco-free lifestyle.
 - c) Abstain from drinking alcoholic beverages when working with athletes.
 - d) Discourage the use of alcohol in conjunction with athletic events or victory celebrations at the playing site.
 - e) Never provide under-age members with alcohol.
 - f) Refrain from the use of profane, insulting, harassing or otherwise offensive language in the conduct of his/ her duties.
4. Ensure that the activity being undertaken is suitable for the age, experience, ability and fitness level of the athletes and educate athletes as to their responsibilities in contributing to a safe environment.
5. Communicate and co-operate with registered medical practitioners in the diagnosis, treatment and management of the athletes' medical and psychological problems. Consider the athlete's future health and well-being as foremost when making decisions regarding an injured athlete's ability to continue playing or training.
6. Recognize and accept when to refer athletes to other coaches or sport specialists. Allow athletes' goals to take precedence over their own.
7. Regularly seek ways of increasing professional development and self-awareness.
8. Treat opponents and officials with due respect, both in victory and defeat and encourage athletes to act accordingly. Actively encourage athletes to uphold the rules of their sport and the spirit of such rules. Respect the dignity of others in the sport. Verbal or physical behaviors that constitute harassment or abuse are unacceptable.
9. In the case of minors, communicate and co-operate with the athletes' parents or guardians, involving them in management decisions pertaining to their child's development.
10. In an educational institution, be aware of the academic pressures placed on student-athletes and conduct practices and games in a manner so as to allow academic success.
11. At no time become intimately or sexually involved with the athletes. This includes requests for sexual favors or threat of reprisal for the rejection of such requests.
12. Never advocate or condone the use of drugs or other banned performance enhancing substances.
13. Accept your role as a teacher and role model for fair play, especially with young members.
14. Remain open to constructive criticism and show respect and consideration for differing points of view.
